

#SEATTLELIVES

Welcome to #SeattleLives Sound Stage!

To maintain a safe facility for all of our directors, employees, volunteers, stakeholders, clients, and guests, please follow the following guidelines while in the space to help us maintain a sanitary environment. We are working to maintain a hygienic working environment in accordance with all CDC guidelines and continually monitoring updates to ensure that we are complying with all guidelines and regulations for the safety of everyone involved!

What You Can Do

- Please do maintain 6 feet of distance to comply with social distancing.
- Please stay at minimum 6 feet away from all audio, lighting, and video consoles and control surfaces. *For the safety of our technicians, they need to be able to move freely and know that they are coming back to clean control surfaces.*
- Please refrain from touching walls and surfaces in the space.
- Please cover your coughs/sneezes with your elbows and wash your hands afterwards. *Feel free to help yourself to hand sanitizer located on the tables in the space at any given time!*
- Refrain from touching your face or having any physical contact with others.
- Please do not share your microphone with others in the space. *We have microphones for all presenters and will sanitize them before each use.*
- Do not pass phones, microphones, paperwork, pens, flash drives, etc. to others. *If you need assistance getting information to a #SeattleLives team member, please ask. We are happy to help!*
- If you are sick, do not enter the space. This is in violation of our policies and violates your liability and likeness release.
- Please report any sanitation questions or concerns to #SeattleLives representatives as soon as you are aware of them.
